Worst Case of Eczema Doctor Had Seen in 40 Years — For Six Months Father Expected His Baby to Die-Blood Oozed Out All Over Her Body—Had to Be Wrapped in Silk and Carried on a Pillow— Now She Is Perfectly Cured.

DOCTOR RECOMMENDED CUTICURA REMEDIES

"My little girl was born two weeks before her time and my wife died four hours after the birth of our child and I had to raise the baby on artificial foods. Six months after birth she broke out and I had two doctors in attendance. There was not a particle of skin left on the body, the blood cozed out just anywhere, and we had to wrap her in silk and carry her on a pillow for ten weeks. She was the most terrible signt I ever saw, and for six months I looked for her to go to her mama, but thank God and his agents, she is alive and well to-day and she will be three years old the seventh of December and has never had a sign of the dread trouble since. "I used every known remedy to alleviate her suffering, for it was terrible to witness. Dr. C.—— gave her up and then I went to C.—— gave her up and then I went to C.—— gave her up and then I went to C.—— gave her up and then I went to C.—— the recommended the Cuticura Remedies, or said we were right in making use of them. As nearly as I can remember, we used eight cakes of Cuticura Scap and three boxes of Cuticura Cintment; but you must take into consideration that hers was an exceptional case, for an old and good doctor said that it was the worst case that had come to him inforty years. I have always hinged on Cuticura Scap to keep her skin soft and to give her a pure complexion. James J. Smith, Wood and Metal Pattern Maker, Box 234, Buena Vista, Va., Oct. 14 and 22, 1906."
